Hi Stan,

I neglected to send these comments to you.  
Could you please update the QAPP, as appropriate?

In addition to these comments, CDM noticed that the values CH2M Hill used on the Project QL column on Worksheet 15 for PCDDs/PCDFs – had different units than the AECOM version used for the SV CWCM QAPP. AECOM identified that the Project QL was in ug/L and the units used on the CH2M Hill version is pg/L. Please have CH2M Hill confirm the units for the Project QL.

Thanks,

Stephanie
